REITSMARKET ANNOUNCES THE LAUNCH OF TWO SMART BETA GLOBAL REITS INDICES

Brussels, October 19, 2017 – Reitsmarket, a specialist boutique in the field of global REITs solutions, is very pleased to announce the recent launch of two smart beta indices in the global REITs space, the **Euronext Reitsmarket Global Conviction Index** and the **Euronext Reitsmarket Global Balanced Index**.

These indices offer liquid access to the global REITs market and exposure to an investable portfolio of 30 and 40 REITs respectively. Both indices are designed to track listed real estate securities worldwide and are using a multi-factor ranking methodology and risk optimization techniques for the selection of the portfolio constituents. The multi-factor approach for the selection of REITs combines a wide range of indicators having valuation, fundamental, growth, or momentum characteristics. The portfolio will be allocated towards the major real estate developed regions of the world, namely North America, developed Europe and developed Asia Pacific.

Euronext N.V. - the leading pan-European exchange in the Eurozone and a leading provider of index solutions - is the Administrator of the index and is responsible for its day-to-day management and dissemination.

“We believe the market lacks liquid solutions in the global REITs space, beyond often illiquid benchmarks. Our Reitsmarket indices will fill this demand and will offer additional diversification to investment portfolios.” said Benedict Peeters, CEO of Reitsmarket, explaining the advantages of the Reitsmarket indices. *“We are very pleased to have collaborated with Euronext on the launch of these new innovative tools for investors”*

The Euronext Reitsmarket Global Conviction Index and the Euronext Reitsmarket Global Balanced Index are calculated as price return, net return and decrement indices and are denominated in euro without any currency hedge. The indices will be rebalanced monthly and will follow an equal weighting scheme.
